10. Limitation on Using Green Reading Materials (Interpretation 4.3a/1)

The player is allowed to use a putting green map or other putting green information, except that:

- i) Any image of a putting green must be limited to a scale of 3/8 inch to 5 yards (1:480) or smaller (the "scale limit");
- ii) Any book or other paper containing a map or image of a putting green must not be larger than 4 1/4 inches x 7 inches (the "size limit"), although a "hole location sheet" that displays 9 or more holes on a single sheet of paper may be larger, provided that any image of a single putting green meets the scale limit;
- iii) No magnification of putting green information is allowed other than a player's normal wearing of prescription glasses or lenses;

SECTION B – LOCAL RULES

The following Local Rules, together with any additions or amendments as published by the tournament committee at each venue, will apply until further notice to all HWPGT events.

1. Out of Bounds (Rule27)

On or beyond any fence, wall or white stakes defining the boundary of the course.

Notes:

- a) Where Out of Bounds is defined by white stakes or fence posts (excluding angled supports) the line joining the nearest inside points at ground level of such stakes or posts defines the boundary. A ball is out of bounds when all of it lies on or over such line.
- b) Where any continuing or adjoining white line is in existence, it defines the boundary. A ball is out of bounds if all of it lies on or over such line.
- c) A ball which crosses a road defined as out of bounds and comes to rest beyond that road is out of bounds even though it may lie on another part of the course.

2. Penalty Areas

(a) Opposite Side Same Distance Relief for Red Penalty Areas (Model Local Rule B-2.1)

Model Local Rule B-2.1 is applicable for a tournament only if the additional local rules for that tournament list out which (if any) red penalty areas have this option and is limited to those areas that are listed.

If no such red penalty areas are listed, this local rule does not apply to any red penalty area.

(b) Opposite Side Relief Where Ball Last Crossed Edge of Penalty Area Where the Edge and the Boundary of the Course Coincide (Model Local Rule B-2.2)

When a player's ball last crossed the edge of the penalty area where the edge of the penalty area and a boundary of the course coincide, that edge is deemed red and opposite side relief is available under model local rule B-2.1.

3. Dropping Zones

Where there are dropping zones for a relief situation, a ball may be dropped in the dropping zone nearest to the reference point under the applicable rule. Such a dropping zone is available as an additional option unless specifically mentioned otherwise.

When a player is using a dropping zone, the relief area is defined by that dropping zone and the ball must be dropped in and come to rest in the dropping zone. If the dropping zone is defined by a line on the ground, the line is inside the dropping zone.

4. Integral Objects (No Relief)

- a) Wires, cables, wrapping or other objects where they are closely attached to trees or other permanent objects.
- b) Concrete bases of boundary fence posts
- c) Pipes, cables or other objects attached to boundary walls/fences
- d) Embedded rocks, tree basins
- e) Retaining artificial walls and pilings when located within penalty areas.

5. Abnormal Course Conditions (incl. immovable obstructions) (Rule 16.1)

- a) White lined areas adjoining any areas defined as Ground Under Repair or areas defined as immovable obstructions are to be regarded as a part of a single abnormal course condition.
- b) Decorative landscaped areas (flowerbeds/shrubberies and the like) surrounded by an obstruction are part of that obstruction.
- c) Secured mats and plastic cable ramps covering cables are immovable obstructions.

- d) Non-permanent bridges erected for players or spectators are immovable obstructions.
- e) All areas bounded by white lines including spectator crossing points where bounded by white lines.
- f) Grass covered cable trenches.
- g) *Seams of cut turf* (Model Local Rule F-7 applies. Relief denied for stance). All seams within the area of cut turf are treated as the same seam in taking relief.
- h) *Drainage Channels* adjacent to, on and parallel to golf cart paths should be treated as one obstruction.
- i) *Ant Hills*: Large or hard ant-hills on the course are, at the player's option, loose impediments that may be removed under Rule 15.1 or ground under repair from which relief is allowed under Rule 16.1.
- j) *Relief denied for Stance*: Relief will be denied for interference to stance from a hole, cast or runway made by an animal.
- k) Relief is available for lie of ball or area of intended swing from any painted yardage spot situated in a part of the general area cut to fairway height or less. Relief denied for Stance.
Note: this does not include painted distances on long driving holes

6. **Limited Relief for Embedded Ball (Model Local Rule F2.2)**

Rule 16.3 is modified this way:

Free relief is not allowed when a ball is embedded in stacked turf surfaces above bunkers.

7. **Immovable Obstructions Close to Putting Greens (Model Local Rule F5)**

Model Local Rule F5 is in effect but is modified as follows:

For a ball in the general area, relief is allowed only when both the ball and the immovable obstruction lie in an area cut to fairway height or less. This includes an obstruction that is on the putting green.

8. **Replacement of Club that is Broken or Significantly Damaged (Model Local Rule G-9):**

Rule 4.1b(3) is modified in this way:

If a player's club is “broken or significantly damaged” during the round by the player or caddie, except in cases of abuse, the player may replace the club with any club under Rule 4.1b(4).

When replacing a club, the player must immediately take the broken or significantly damaged club out of play, using the procedure in Rule 4.1c(1).

For the purposes of this Local Rule:

A club is “broken or significantly damaged” when:

- i) the shaft breaks into pieces, splinters or is bent (but not when the shaft is only dented)
- ii) the club face impact area is visibly deformed (but not when the club face is only scratched)
- iii) the clubhead is visibly and significantly deformed
- iv) the clubhead is detached or loose from the shaft, or
- v) the grip is loose.

Exception: A club face or clubhead is not “broken or significantly damaged” solely because it is cracked.

Penalty for Breach of Local Rule— See Rule 4.1b

9. Permanent Elevated Cables.

If it is known or virtually certain that a player's ball hit an elevated power line or cable, the stroke does not count. The player **must** play the ball without penalty from where the previous stroke was made (Rule 14.6).

10. Ball Played From Outside the Relief Area When Taking Back-On-The-Line Relief (Model Local Rule E-12)

When taking Back-On-the-Line relief, there is no additional penalty if a player plays a ball that was dropped in the relief area required by the relevant Rule (Rule 16.1c(2), 17.1d(2), 19.2b or 19.3b) but came to rest outside the relief area, so long as the ball, when played, is within one club-length of where it first touched the ground when dropped.

This exemption from penalty applies even if the ball is played from nearer the hole than the reference point (but not if played from nearer the hole than the spot of the original ball or the estimated point where the ball last crossed the edge of the penalty area).

This Local Rule does not change the procedure for taking Back-On-the-Line relief under a relevant Rule. This means that the reference point and relief area are not changed by this Local Rule and that Rule 14.3c(2) can be applied by a player who drops a ball in the right way and it comes to rest outside the relief area, whether this occurs on the first or second drop.

11. On course units used for lighting

If a ball strikes on course unit for lighting, including power supply boxes and high-power electric towers, the ball must be played as it lies.

If the ball is lost, Rule 18.2 applies.

12. Temporary Immovable Obstructions

The entire text of model local rule F-23 applies

13. Temporary Fencing for Crowd Control

Wooden and metal fencing (except single units) erected for crowd control will be treated as an immovable obstruction. When the ball lies inside the fencing Rule 16.1 will apply. When the ball lies outside the fencing in the general area and within four club-lengths of it, and providing that the fencing intervenes between the player's ball and the hole, or the ball lies within one club-length of a spot where such intervention would exist, the ball may be lifted and dropped, without penalty, inside the fencing under Rule 16.1 and "the point on the course nearest to where the ball lies" under that Rule shall be the nearest point inside the fencing which (a) is not nearer the hole than the ball's original position, (b) avoids interference as defined in Rule 16.1, and (c) is in the general area. The ball may be cleaned when so lifted.

Exceptions

- Single units of metal fencing are movable obstructions; Rule 15.1 applies.
- The player may not obtain relief under this local rule if (a) interference by anything other than the metal fencing makes the stroke clearly impracticable or (b) interference by the metal fencing would occur only through the use of a clearly unreasonable stroke or an unnecessary abnormal stance, swing or direction of play.
